BETHEL WATER DISTRICT TO TRY COMPUTER BILLING

At the regular monthly meeting of the Bethel Water District on Tuesday night, the trustees discussed a proposed computer billing serving with a representative of E. J. Prescott, Inc., of Gardiner. According to the plan for implementation of such a service, the earliest that the District could send bills in this manner would be for the October billing period. Once in operation, the trustees would evaluate the computer billing period service's progress and decide after probably a year whether or not to continue. Reaction of the public, costs to the District, labor saving and reduction of the number of overdue bills would be taken into account during the trial period.

It was reported by Margery Coleman that the food sale that was held at "Shop and Save" last month netted \$157.86 which was turned over to the Oxford Pomona Secretary.

Raymond Tripp Sr. was the lucky winner on the drawing of the quarter donations given by the members in attendance. This is held for each meeting.

The Scholarship Committee realized \$3.48 on the blind sale held before the meeting started. Seventy-five dollars is needed before the quota is reached. More help is needed if two scholarships are to be given this fall. Only five more meetings in which to get that amount.

The program. The C.W.A. song was sung which was set to the tune of "Bless Be The Tie." It was called "Shape Tomorrow's Legacy." Address of welcome, Master of West Paris Grange, Louis Marcotte; Response by Master of Oxford Pomona, Raymond Coleman. The awards for the cranberry bread were given out by Marguerite Marcotte, chairman of the C.W.A. and they went to, first, Almon Harmon, Norway; and Madeline Brett, Frederick Robie. The second went to Lawrence Hadley and Mary Adley Hadley, Lakeside Grange. Katie Tamminen of West Paris did a monologue which was real cute. Music by Richard Felt, Gerald Easter, harmonica; and Carl Brooks on the bones. Mystery march; skit by Alma Abbott, Beulah Cole, Nestor Tamminen, Myrtle Bisbee and Olive Davis. Harry Boyer, Mystic Grange, Dixfield, rendered two pleasing solos. Carl Brooks danced Bonnie and Clyde followed by Rastus. Priscilla Jasud put on a Mother's Day tableau with harmonica music in the background with mother (Priscilla) by a cross and Elsie Giddings, the narrator. Gerald Easter gave a harmonica solo, then Richard Felt joined him for a couple more numbers.

South Woodstock —

Olive Davis, Corres.

Esther Davis has had a well drilled near her garage. She is having a house trailer set in there soon.

The leaves and grass have popped this week with the little rains. I guess the grass wasn't killed by the cold weather after all. I guess the tree swallows are not building here this year. They came and looked over the house but evidently they were not pleased because they left.

The Willing Workers will meet with me May 22, Thursday. Hope everyone will come.

The Franklin Grange will meet for inspection on May 19, Mr. and Lewis Bissbee will be present.

Mr. and Mrs. Carl Brooks took Mr. and Mrs. Robert Felt and Olive Davis to Bear River special meeting where they helped on their program. This was an open meeting for the public and the good citizenship award was presented at this time, May 3.

They also attended their own meeting May 5 which was a Five o'clock meeting. There were 47 present. Mr. and Mrs. O'Blanes attended these last two meetings also. May 6 they were at West Mar's Pomona meeting.

Mr. and Mrs. Arthur Andrews, Harbaron Hooven and two girls, and Mrs. Chris Haska took dinner with Olive Davis Sunday, the 4th. Mr. and Mrs. Sylvia helped take off the double windows and Arthur put battery in my tractor and d other odd jobs I can't do.

Mrs. Mary Brown is with her daughter, Esther Davis, for a while. Esther was in Livermore and brought her back with her. Esther spent a couple of days at the Velma Davis last week.

Meeting. The next meeting will be held at Alder River Grange, East Bethel, on June 3, when election next year's officers will be held.

The last day of March my sister and I took an Allstate Bus for a visit to Hearst Castle in San Simeon, Calif. This magnificent estate is now a State Park and well worth a visit to it. George Hearst bought in 1885 a Spanish land grant called the Piedra Blanca Rancho which had 43,000 acres in it. Later he bought more land until he had 275,000 acres in San Simeon and Santa Rosa with a coast line of more than 50 miles. He built first a Victorian style ranch house in the late eighties which still stands today in a grove of trees at the foot of the "Enchanted Hill". William Randolph Hearst after he had inherited the Enchanted Hill decided to build a place to hold the many art treasures and antiques the family had gathered over the years. He chose the top of the hill as he always enjoyed the magnificent views and balmy weather there. The first building was called the Casa del Mar which is now a guest house. This was the first of three guest houses which Mr. Hearst had built. The family lived in the Casa del Mar while the La Casa Grande was being built. The three guest houses contained a total of 47 elaborate guest rooms furnished wholly in antiques. Work on the La Casa Grande was started in 1922 and continued until 1947. Some areas are still not finished. La Casa Grande has 100 rooms, 38 bedrooms, 31 baths, 14 sitting rooms, two libraries, a theater and two huge swimming pools.

Pool and one inside called the Neptune Pool and one outside called the Roman Pool. Whole rooms were designed to display antique ceilings, fireplaces, tapestries, of which there must be hundreds — doors and window frames. Heavy pieces of furniture, too large to go through the door were brought

in before outer walls were sealed up. Visitors passing by on the highway below began calling it "Hearst Castle," a name by which it is known today. The Castle is erected on the crest of the 1,600 foot mountain which at first was called "Camp Hill." The Hearst Corporation presented this Castle to the State of California in 1958 in accordance with the legacy left by William Randolph Hearst.

The State has three tours—the first is a guided tour of the gardens, pools, guest house and main first floor of the Castle. This is the one we took. No pictures were allowed inside, but we could take some outside. Tour two was through the upper floors of the Castle; the third tour was through the North Guest Wing and a Guest house. There were buses leaving at the gate at the foot of the hill every five minutes and usually were full. Each could hold about 50 people. As the price was at least five dollars a person you can see that this State Park is really making money for the state—the only one that really is doing so.

On the way to the castle we stopped in Solvang, a Danish village, with windmills etc. and lots of quaint little houses and shops. We had lunch there and also did some shopping. Later we stopped at the Madonna Inn in San Luis Obispo. The Inn is constructed on stone and has beautiful stone work inside of it. One of the rest rooms is covered with red with huge marble shelf and wash basins. Really unique. I liked all the stonework in the various dining rooms and lobby best of all. As is usual on these tours you only have so much time to snoop around and enjoy yourself, so after an hour or so we were on our way to the castle.

Oh, yes, forgot to tell you that the Hearst family still owns the first ranch house at the foot of the hill. Also forgot to say that William Randolph Hearst also had a big zoo of exotic animals, but now there are only 20 zebras, a few elans and some wild boar according to our guide. It is a trip well worth taking if anyone goes to California.

Greenwood City

— Mrs. Colista Morgan, Corres. —

This May morning, as I went to my clothes line out back, the south wind was blowing. My eyes caught a motion from a branch just above and beyond the line. It is at this time, when violets are ready to bloom on the sunny southern slopes, when wild cherry and apple trees and some of the birches, sumacs and the shrubbery in sheltered sunny nooks, begin to put out misty greenery of tiny leaflets that we see what now caught my eyes, the Myrtle Warblers. This was a male lovely in nuptial dress of blue-gray, black, white, and lemon yellow. He was catching insects dancing in the sunshine. I watched him for some time then he flew elsewhere toward the pond. The water moved with the wind and flashed in the morning sun. It had fully shaken winter off as easily as we rub sleep from our eyes.

Later in the day I climbed through the woods. I watched the tops of the trees to see the red of the maples in blossom and the green of the poplars. I stumbled, so decided I'd better look toward the ground. It was dappled with moving dark shadows and with bright sunny patches. It was a strange day. The air would be very quiet, and then up ahead there would be a fluttering of branches. A moment later a little gust of air would pass me, and it would be still again.

Emerging from the forest into the fields the wind was stronger. I shaded my eyes to look out across to the mountains. They looked like the lavender-blue that lights a lake for a moment after the sun has set. They have their moods just as people do.

A tiny brown creeper was just starting his climb up a tree. It usually goes to the bottom of things, for having reached its objects, it climbs. It climbs straight up or spirals around, and having neared the tree-top or its first branches it glides down, down to the bottom and starts again. The process is much like that of the

flying squirrel, who climbs a tree then sails down to the next.

Now the world everywhere showed many colors of green; the chartreuse green of the willow, the soft tender green of the grass, the sharp green of the leaves of the ash.

Golden chips of dandelions had begun to fling themselves in fields and on lawns.

I looked for the Jack-in-the-pulpit but these quaint little preachers ensconced in their delicate pulpit had not yet appeared.

It was a lovely spring jaunt and again at home the lemon-yellow stars of the daffodils looked like fragments of stolen sun.

"I reached my home, humming some words, Close in my heart were the songs of the birds."

What a happy visit, full of cheer, With woodland friends that the heart holds dear."

RESOLUTIONS OF RESPECT
There is sadness in our hearts as we realize our loss in the passing of our worthy sister, Agnes Chase. The members of Bear River Grange recognize the wisdom and mercy of our Heavenly Father, in calling our sister to her Eternal Rest.
May the following poem be committed to the memory of our Beloved Sister.
You can't hold back the tide
Or stop the tides from flowing.
Or keep a rose from withering
Or still a wind that's blowing
And time cannot be halted
In its swift and endless flight.
For age is sure to follow youth
Like day comes after night.
For he who sets our span of years
And watches from above,
Replaces youth and beauty,
With peace and truth and love...
And so it seems, those passing years
Are opening up the way,
To the everlasting beauty
Of God's Eternal day.
It is the desire of Bear River Grange members, that copies of these Resolutions be sent to the Family of our Sister, to the Bethel Citizen for printing and a copy be held in our keeping.

HISTORICAL SOCIETY UNDERTAKES GENEALOGICAL SURVEY

The Genealogical Committee of the Bethel Historical Society has undertaken a genealogical survey of the town of Bethel. The goal is to gather all known genealogical data on every person currently living in Bethel or on anyone who has ever lived in the town. Survey forms were distributed at the last meeting of the Society and will be available at each meeting.

One of the purposes of the survey is to gather genealogical data for possible inclusion in a new history of the town which is one of the long range projects of the Society. Committee members Al-den Kenneth, Mabel Kenneth, Floribel Haines, Jean Ness, Gloria Snyder, Judy Barker and Agnes Haines will be coordinating the effort and contact as many people as possible in order to complete the project before the Indian Raid Celebrations in August of 1981.

Anyone interested in assisting with the project or in submitting his or her genealogy is urged to call the Society Office at 824-2908 or write the Society, P. O. Box 12, Bethel, Maine 04217.

COUNTY HISTORICAL SURVEY IS WELL UNDERWAY

Programs on the buildings of Oxford County will be given in Lovell and Buckfield this week. George R. Allen, Project Director of the Oxford County Historic Resource Survey, will speak and show slides of Oxford County Architecture in Buckfield on May 15, at 7 p. m. in the Odd Fellows Hall, at a gathering sponsored by the Buckfield Senior Citizens, the Steering Committee of the Old Church on the Hill, and the Buckfield Literary Club. Allen will give a slide-talk to the Lovell Historical Society on Sunday, May 18, at 7:30 p. m. in the Hobbs Memorial Library in Lovell Village. Both programs are open to the public.

Survey work has been proceeding in several communities in the county over the last few weeks. In Bethel, approximately 30 volunteers have been working to document the buildings of that town. Several members of the Greenwood Historical Society have been preparing forms for the survey that will be done in that town later in May. In Woodstock, Mary Billings and the students of the Woodstock Elementary School have been gathering information on houses in the town for the Woodstock Historical Society, and have made their information available to the Survey. Hiram has begun its survey, with members of the Hiram Historical Society working on the buildings there. In Rumford, eleven Junior High School students in the Maine History Course have taken 10 to 15 buildings apiece to survey. Individual surveyors have begun work in Paris, Fryeburg and Gilead.

In order to get an overview of historic buildings in different areas of the county, Project Director Allen has made tours of a number of towns with interested local citizens; Mexico, Peru, Fryeburg, Hartford, Sumner, Sweden, Hebron, Andover, Dixfield, Waterford, Rumford, Byron, Newry, Norway, Gilead, Greenwood, Hanover, Roxbury and Woodstock have been investigated in this fashion. Allen is planning similar trips through other towns in the county in the near future.

The Oxford County Historical Resource Survey, sponsored by the Bethel Historical Society under a grant from the Maine Historic Preservation Commission, is documenting buildings and sites in the county that are more than 50 years old. When the survey work, undertaken by volunteers from within each community, has been completed, a selection of the most significant buildings and sites of the county will be made, and photographs and data about them published, as the Oxford County Historic Resources Inventory. In addition to serving as a guidebook to Oxford County history and architecture, this volume will serve to guide the Maine Historic Preservation Commission in their nomination of Oxford County buildings and sites to the National Register of Historic Places and the Maine Historic Resources Inventory. Anyone interested in architecture or history, and willing to contribute a few hours to the Survey is urged to contact Project Director George Allen at 824-2908 or 875-5225.

ATHLETIC INJURIES WORKSHOP WELL ATTENDED AT TELSTAR

On Saturday May 10, approximately 20 coaches attended a workshop on athletic injuries and sports medicine at Telstar Regional High School. The workshop was organized by Mary Ann O'Connor, Health Education Coordinator and included SAD #44 coaches, representatives from Gould Academy and the Bethel Summer Recreation Program.

Dr. Charles Smith Orthopaedic Surgeon from Norway was the featured speaker. Working from head to foot on a model skeleton Dr. Smith described common athletic injuries and how to deal with them. He went into considerable detail concerning knee injuries and cautioned coaches about areas to be particularly concerned with such as head and neck injuries. He also talked about emergency transport and first aid equipment at the field. The session closed with a lengthy question and answer period.

FROM THE TOWN OFFICE

continued from Page One
The Board reviewed Section 205 of the Special Amusement Permit Rules and Regulations which indicates that an establishment with a liquor license having entertainment at which 50 people or more are present must have a uniformed officer present. Jim Diebel, Manager of the Bethel Inn, spoke with the Board to indicate that this requirement should be able to be waived for weddings and private parties. The Town Manager also indicated problems in administering this requirement due to present wording. After discussion, the Board directed the Manager to work with legal counsel to revise the wording to allow deputy sheriffs in addition to local constables to work at establishments.

The Board reviewed action taken at their April 28 meeting regarding the purchase of pagers for the Fire Departments. After much discussion, it was agreed that no action would be taken pending additional information from the Manager and Radio Study Committee.

The Manager reported that the brush clearing project at the airport being done by the U. S. Forest Service together with the Highway crew was about completed and that considerable firewood was generated from the clearing project. The Board decided to have a one day sale of wood at \$40 per cord at the Town Garage lot on a first come basis. The date of the sale to be set by the Town Manager and advertised in the Citizen. Income from the sale of the wood is to be used to help offset the cost of the clearing project.

The Board reviewed the proposed 1980 sewer department project but no action was taken pending additional information to be put together by the Manager.

The Town Manager was authorized to buy winter road salt with the company storing the salt under cover until delivery in the fall. The intent is to purchase now before price increases take place.

The Board set Monday evening, May 18 for a special meeting to review priority projects. The Manager was directed to make a report on projects initiated and completed during the last three years for the Board members to review prior to this meeting. Wayne Garthwait of the Maine State Housing Authority will also meet with the Board to discuss the mechanics for local review of the proposed development of the former Thunderbird Motel into elderly housing.

Town Clerk Merton Brown was confirmed as warden for the June 10 primary and special election and the Board signed the warrants for this election. Hours for the election were set at 10 a. m. to 8 p. m. at the Fire Station. Absentee ballots for the June 10 Primary and Special Election are now available by calling the Town Office.

BETHEL SAVINGS BANK HOLDS ANNUAL MEETING

continued from Page One ren Hastings, Philip C. Jackson, Ronald C. Kendall, E. Louise Lincoln, Raymond G. Moran, Dexter M. Stowell, John W. Trinward, Edmond J. Vachon.

Copies of the trial balance for each of the past four years were mailed to the membership in advance for study and analysis and the report was accepted unanimously.

At the conclusion of their business meeting, the Corporators adjourned to join the invited guests to hear the report on the activities of the bank during the past year by its president, Raymond G. Moran.

Mr. Moran reiterated the feelings of others expressed during the evening that the past year has been beset by problems for the entire banking industry. It has been a period of inflation into double digits, of high interest rates, making the cost of money almost prohibitive and stifling home construction and the demand for mortgages. Coincidentally, banks were caught in a period of heavy outflow of funds caused by disintermediation when depositors found elsewhere some attractive investment instruments created by the tight money markets. Banks found themselves competing for funds of small and large depositors in various ways that saw yields rise to historic highs. This situation is one likely to continue, though probably not at as high a rate of return as in past months because of the gradual phase-out of Regulation Q, eliminating ceilings in interest rates during the next few years. Bank marketability of services will need to change as a result and the introduction of such innovations as variable rate and roll-over mortgages are just a matter of time. Underlying all the changes are the myriad of regulations conceived by the bureaucracy for the purpose, hopefully, of protecting the consumer but sometimes resulting to its detriment and the difficulty of administration by the financial institutions.

In summary, Mr. Moran stated that the future appears to present many challenges and prudent management on the part of officers, staff and trustees is of the utmost importance.

All present were served a bounteous and delicious buffet meal with wide and varied assortment of dishes at the conclusion of the President's report.

Later in the evening, the Trustees held their annual meeting and elected its Officers and Administrative Staff of the Bank for the ensuing year as follows: Chairman of the Board, Edmond J. Vachon; President, Raymond G. Moran; Vice-President, Kimball Ames; Treasurer and Clerk, Colleen F. Boyd; Assistant Treasurer, Frances M. Clark; Assistant Treasurer and Manager, Vicki B. Myers; Secretary/Receptionist, Lillian P. Lowell; Bookkeeper, Dorothy Bartlett; Head Teller, Jean Owen; Tellers: Cheryl Angvine, Mary Ellen Andrews, Judith Webster, Deborah Greene, Sarah Burbank Smith, Roberta Ross, Jan Braden.

RUBELLA (GERMAN MEASLES) SCREENING CLINIC

Due to the recent Rubella (German Measles) outbreak in Waldo County, Maine, all have been reminded that not all of Maine's children and young adults are protected from Rubella. So long as the disease is present in our communities and young women are not immune, there is a potential risk of Congenital Rubella Syndrome developing in babies.

If a pregnant woman gets Rubella in the first three months of pregnancy, there is a 30 - 40% chance that the baby will have a birth defect.

William T. Whitney, M. D., pediatrician at the Bethel Area Health Center and Child Health Center in Norway states "Rubella infecting the unborn baby can affect all parts of the body of that baby. They can be born with mental retardation, small brains, heart defects, hepatitis, bone deformities, cataracts of the eyes and life threatening bleeding problems."

He states that "There has been almost no rubella syndrome in babies since the epidemic of 1964-65. This is due to the introduction of Rubella vaccine in the mid 1960's and the immunization of infants with this vaccine. The vaccine for rubella is one of the safest vaccines with few side effects."

The Bethel Area Health Center is sponsoring a Rubella Screening Clinic on May 22 for adolescents and young adults to determine if they are immune to rubella or not. Permission slips and information will be sent home with all students in S. A. D. #44 who have no health record of immunization against rubella.

The screening tests will be done so that anyone who is not immune can receive the vaccine. Those persons whose screening show that they are immune (have protection against the disease) do not need the vaccine.

Steven Kraus, M. D., family practice doctor and medical director at the Health Center states that the newest vaccine offers the best protection from the rubella disease. He strongly recommends that any student who is not immune receive this vaccine. Those who are unsure of their past history of German measles (Rubella) should be screened to protect the unborn. Any parent requiring further information may call Mrs. Bartlett, P.N.P., School District Nurse, 824-2136, or Mrs. Tremblay, F.N.P., at the Bethel Area Health Center, 824-2193.

Mrs. Doris Lord, Haines City, Fla., is spending some time at the Bethel Spa Motel and visiting friends in town.

Mr. and Mrs. Richard Stevens, Mr. and Mrs. Randal Stevens have returned home after spending several weeks in Florida. Their brother, Hubert Stevens, joined them in Florida at the home of their sister, Helen Marston, and is now visiting here in Bethel.

Clarice Gibson, Corres.

Mother's Day was cold in the morning then around noon it was beautiful weather and Daniel Hannon and two girls, the Smiths and George Gibson, maybe others, took advantage and cooked barbecues for the women. Then just about the time for the play-off basketball game it started to cloud in and rained so the men and women could if they wished watch the game without feeling guilty about doing outdoor chores.

Saturday the Daniel Hannon family worked on the garden and the two girls had fun helping put in the onion sets. We as parents so often forget that the young can learn early if we will only take time to do with our children. Flowers and shrubs seemed to be the most common gift given mothers. These can be enjoyed for a long while with proper care.

Human Frailty
How many times I give you my cares,
Surrender my life and my all,
How many times do I give you my day
And in one weak moment I fall,
How many times do I kneel and confess
Telling you how I repent.
And before the day has come to a close
I have the same fears and laments,
How many times have I opened my heart
And invited my Lord to come in
Humbly kneeling at the foot of the Cross
And again be tempted to sin.

Human Frailty
How many times I give you my cares,
Surrender my life and my all,
How many times do I give you my day
And in one weak moment I fall,
How many times do I kneel and confess
Telling you how I repent.
And before the day has come to a close
I have the same fears and laments,
How many times have I opened my heart
And invited my Lord to come in
Humbly kneeling at the foot of the Cross
And again be tempted to sin.

B.E.A.R.S., Inc.

(Bethel Emergency Ambulance & Rescue Service)

All E. M. T.'s and Advanced First Aiders are reminded of the workshop and refresher class on Injuries to the Spine, Extrication from vehicles and lifting and moving patients, Sunday, May 18 from 1 to 4 p. m. Please do your best to attend this important class.

B.E.A.R.S. monthly meeting is Monday, May 19 at 7 p. m.

Safety tip of the week: what to do during thunderstorms — When thunderstorms threaten:

—Outdoor recreationists should be particularly concerned. Above all, they should check the latest weather forecasts before going into remote areas with minimal radio reception.

—Campers should avoid dry gulches. Heavy rainfall with thunderstorms many miles away can result in flash flooding there and in deep canyons.

—A growing number of National Weather Service Stations have continuous FM radio weather broadcasts transmitted on 162.55 or 162.40 megahertz. Many modern portable radios carry these weather channels. Check your location for their broadcasts.

—Lightning kills more people annually than tornadoes and hurricanes combined. Only flash floods in recent years exceed the number of deaths by lightning. Lightning usually kills only one person at a time, thus attracting less attention than more spectacular hurricanes and tornadoes.

—To avoid the lightning hazards, move inside a large building or a metal vehicle if possible.

—Do not stand beneath a natural lightning rod such as a large tree in an open area.

—Avoid projecting above the surrounding landscape.

—Avoid metal equipment and small isolated sheds in open areas.

—Boats in open water are highly susceptible to lightning strikes. Boats and swimmers should stay out of the water during high thunderstorm activity.

—In the open, seek the lowest land level, drop to your knees and lean forward with hands on the knees.

—A boater who cannot make it to a safe shoreline during a thunder storm should steer toward a protective inlet or bay and hold the boat head-on into the waves.

—Sailboats should also find a protective inlet, drop sail and anchor. Most larger sailboats can ride out moderate wave action.

—At a campsite secure all objects that can be blown about easily. If possible park campers and trailers head-on into the storm to minimize the overturning power of strong winds.

—When available, seek shelter of stronger buildings.

—Avoid lower stream beds that may flash flood from heavy rainfall.

West Bethel

Mrs. Cathryn Lovejoy, Cor.

The residents of West Bethel extend their deepest, heartfelt sympathy to the family of Paul Head.

It seems that with his passing a "corner stone" has been taken from us. His dry sense of humor has given us many a chuckle, his kind and helping hand has kept food on many family's table and were in a financial bind. Children looked forward at Halloween time to getting to Head's Store where Paul was sure to have some "store bought" candy for their bags. During the hunting season the men-folks loved to gather at Head's Store to learn how many deer had been tagged, and to see who could tell the "tallest yarn," and Paul would patiently keep the store open late into the evening to accommodate them.

When the finances of the church were minus necessary funds, Paul would quietly dip into his own pocket and donate the needed amount.

I had been brought up to address my elders as Mr. Mrs. Uncle or Aunt, so when I first came to West Bethel, this is the way I addressed Paul and Olive but I was immediately set straight and when ever I slipped I was gently but firmly corrected.

Paul's presence and his general store will be greatly missed.

Thank you

Mrs. Dombkowski's Advanced Foods Class has been studying meat, fish and poultry.

This past week we have been working with turkey. We made a turkey dinner. We used the leftover turkey and made turkey soup and Gobble-Up Casserole. Below is the recipe for Gobble-Up Casserole.

Gobble-Up Casserole

6 c. diced cooked turkey
3 c. bread crumbs
1/2 c. celery
1 onion, chopped
1/2 c. butter
1/2 tsp. salt
1/2 tsp. baking powder
1/2 tsp. pepper
1/2 tsp. poultry seasoning
1 egg beaten
1/4 c. milk

Place turkey in 9x13 inch baking pan. Sprinkle bread crumbs, celery, and onion in butter in skillet. Add salt, baking powder, pepper and poultry seasoning. Stir in egg and milk. Spoon mixture over turkey. Spread soup in layer over top. Bake, uncovered, at 350 degrees for 45 minutes to one hour. Add more liquid during baking time if necessary. Garnish with parsley.

Sunday River

Mrs. R. M. Fleet, Corres.

Sent in by Eva Yates:

A cool foggy morning. The fog is so thick you can't spy on your neighbor if you want to. But the weather man says it's to be a good wash day, so keep smiling. They say rain tomorrow, but we need lots of rain to replace the snow we did not get in the winter. Not very much planting done as yet, it's far too cold, I believe.

Mr. and Mrs. David Fleet hosted a going away party for their son, Jeffrey, at Bear River Grange hall Friday night, May 9. Between 75 and 80 attended. He received some nice gifts and a money tree. There was lots of goodies to please the palate and a good time was had. He will leave May 19 for Missouri where he will join the National Guard. Best of luck to you Jeffrey.

Russell Yates was in Norway for his usual blood check and to do errands on Friday. Eva went as far as High Street, West Paris and visited with her son, Lawrence and wife, Grace, and great granddaughter, Debbie Waisanen.

Mr. and Mrs. Bryce Yates and daughter, Darnita and Peggy Blake spent a couple of days last week in Bryce's fifth wheeler at Rockport. The ladies enjoyed strolling and sight seeing and window shopping, while B. H. attended a logging affair. All had a good time.

Bear River Grange met Saturday night at their hall, preceded by a pot luck supper. Several members were absent for different reasons. The charter was draped for our sister, Agnes Chase. Next meeting will be May 24 and it is hoped all officers will attend as Deputy Bisbee will be present. There will be a pot luck supper before the meeting. Grab your olde bonnet and come over or up or down and partake of a good feed.

Laura Hutchins and Lorene Billings called on the Yates' on

Friday evening and gave Eva a lovely Mother's Day plant.

Did you even attend a rabbit show? Sunday Peggy Blake, Russell and Eva, left home about 8 a. m., went to Norway, picked up Viva Whitman and Wynona Woolf and started for Cumberland Fair Grounds to a rabbit show. There was to be between 300 and 400 rabbits there and there sure were. White ones, gray ones, black ones, red ones, blue ones, copper colored ones, striped ones, spotted ones, streaked ones, big ones, little ones, middle sized ones, such a collection and all beautiful. A big crowd was there, and it was nice until about 1:30 or so the wind came up and cold and did it ever tear down across those fair grounds. Did you know that rabbits are judged on about the same style as a beef creature. If you ever get the chance to go to a rabbit show don't miss it. There were black and white striped ones, brown and white striped ones, lop eared ones and some old giant ones, all big pets of their owners. It was a day long to be remembered.

As Sunday was Mother's Day, mothers everywhere were the talk of the day. Some like myself got lovely gifts of different kinds, some went out to dinner etc. There are so many ways to show your love for Mother on her day. If you don't have one of your own, borrow one for the day.

Five members of Bear River Grange attended the six point Grange meeting at Franklin Grange in Bryant Pond, May 5. A lovely supper preceded the meeting and a good crowd was there. Bear River Grange furnished the program.

A phone call Saturday night from Carroll (Tom) Yates in Colorado, tells us that if all goes well he will be in Maine on July 19, for a few days visit. He said Happy Mothers Day. We plan now to have our reunion of the family and relatives at the home of Bryce and Barbara Yates, July 20. If rainy it will be held at Bear River Grange hall, Newry Corner.

CARD OF THANKS

I would like to thank all my friends and family for all their cards, gifts, flowers, and help during my stay in the hospital and since my return home. Special thanks to my bowling team for the lovely picture.

Thank you,

Anita
